

Small Bear Math

SUPPLIES 1 die for two children to share
NEEDED: 10 plastic (bear) counters or Teddy Graham crackers per child
1 print out of this page per child

Roll the die. Put the corresponding number of bears on the frame below, one in each square. Have your partner roll the die and put the corresponding number of bears on their frame. Count your bears. Who has more? Who has less? Write the addition sentence to show how many more you will need to make ten. Play at least six rounds.

Write your addition sentences here:
